By email to: j.vaidhyan@samsung.com

Dear Mr. Vaidyan,

The Ministry of the Environment and Climate Change has reviewed the following ground-borne vibration monitoring program for test pile installation submitted in accordance with Condition H2 of Renewable Energy Approval (REA) No. 5272-A9FHRL, issued on June 29, 2016:

- *Vibration Monitoring Program, North Kent Wind Farm, Chatham-Kent, Ontario, dated March 3, 2017, and prepared by Storer J. Boone, Ph.D., P.Eng., Golder Associates Ltd.*

Pursuant to Condition H3 of REA No. 5272-A9FHRL, please accept this letter as written approval of the ground-borne vibration monitoring program for test pile installation. North Kent Wind 1 LP is requested to ensure that the above-noted document and this letter are made available on the project website.

Please be reminded that in accordance with the above-noted document and the requirements of Section H of the REA, production pile driving shall not commence at the site until a ground-borne vibration monitoring program for production pile driving is submitted to and approved by the Director. In addition, a ground-borne vibration monitoring program for project operations must also be submitted to and approved by the Director prior to project operations.

Yours sincerely,

Mohsen Keyvani
Director, Section 47.5 *Environmental Protection Act*
Ministry of the Environment and Climate Change
