NOTICE OF APPLICATION AND WRITTEN HEARING

APPLICATION BY SOUTH KENT WIND LP

FOR LEAVE TO CONSTRUCT TRANSMISSION FACILITIES

IN THE MUNICIPALITY OF CHATHAM-KENT

South Kent Wind LP (the "Applicant") has filed an application with the Ontario Energy Board (the "Board") dated June 14, 2011 under section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B. South Kent Wind LP has applied for an order of the Board granting leave to construct the following Transmission Facilities, all within the Municipality of Chatham-Kent:

- (i) two 34.5 kV/230 kV step-up substations;
- (ii) an approximately 27 km, 230 kV transmission line (the "Corridor Line") that will run between the two step-up substations;
- (iii) an approximately 5.7 km, 230 kV transmission line that will run from a tie-point on the Corridor Line to the Chatham Switching Station owned by Hydro One Networks Inc.; and
- (iv) a fenced-in metering station with two meters to be located adjacent to the Chatham Switching Station.

A map showing the location of the Transmission Facilities is included with this Notice.

The Applicant states that the proposed Transmission Facilities are needed to connect the 270 MW wind farm that is currently being developed in the Municipality of Chatham-Kent to the Independent Electricity System Operator controlled grid.

The proposed Transmission Facilities and the cost of connecting these assets to the Chatham Switching Station will be paid for by the Applicant. The Applicant is also in the process of securing the necessary land rights for this project.

The Board has assigned File No. EB-2011-0217 to this application.

South Kent Wind LP is a limited partnership and its two limited partners are Pattern South Kent LP Holdings LP and Samsung Renewable Energy Inc., each of which holds

a 49.99% interest in the Applicant. South Kent Wind GP Inc., which is indirectly wholly owned by Samsung and affiliates of Pattern, is the general partner of the Applicant and holds a 0.02% interest in the Applicant.

Board Jurisdiction

For a leave to construct application that is filed under section 92 of the *Act*, such as this application, section 96(2) of the *Act* provides that when determining if a proposed work is in the public interest, the Board's jurisdiction is *limited* to consideration of:

- the interests of consumers with respect to price and the reliability and quality of electricity service, and
- where applicable and in a manner consistent with the policies of the Government of Ontario, the promotion of the use of renewable energy sources.

Therefore, the Board has no power to review what might broadly be described as “environmental” issues. The generation facility itself (i.e. the wind farm) also is not part of the leave to construct applications and does not fall within the scope of this proceeding.

Any environmental issues related to this project are to be considered through the Renewable Energy Approval (“REA”) process. Please contact South Kent Wind LP directly for information on the REA process.

How to see South Kent Wind LP’s Application

However, the name of the individual and the content of the letter of comment will become part of the public record.
