**BELLE RIVER WIND PROJECT:
STAGE 1 AND STAGE 2 ARCHAEOLOGICAL ASSESSMENT REPORTS AND
CULTURAL HERITAGE ASSESSMENT REPORT**

Dear Mr. Rose,

The original Stage 1 archaeological background study report was submitted to the Ministry of Tourism, Culture and Sport (MTCS) on October 20, 2014. The original Stage 2 archaeological property survey report was submitted to the MTCS on January 28, 2015. The original Cultural Heritage Impact Assessment report was submitted to the MTCS on December 22, 2014 and comments were received on January 22, 2015. A revised Cultural Heritage Impact Assessment report was submitted to the MTCS on February 18, 2015.

Since the time of these above noted submissions, the Project Study Area for the Belle River Wind Project has been revised. Furthermore, there is also now a reduction in the amount of turbines proposed for the Belle River Wind Project. The refinement of the Project Study Area and the reduction in the number of turbines do not impact the information provided in the reports and no further Archaeological Cultural Heritage Assessments are anticipated to reflect these changes.

Sincerely,

GOLDER ASSOCIATES LTD.

Bradley Drouin, MA
Senior Archaeologist

Carla Parslow, Ph.D.
Associate, Senior Archaeologist
