\* Reptile hibernacula/gestation sites for snake SAR as shown on this figure were identified through the 2011 and 2015 baseline studies conducted within the HIWEC location. Studies to identify specific locations of potential reptile hibernacula/gestation sites were not undertaken outside of the 120 m from the HIWEC location but occur elsewhere within suitable habitats for snake SAR.

\* All Data presented is based on raw and GIS data collected by AECOM staff during the 2014-2015 season. Suitable habitat layers for SAR have been manipulated by NRSI.
