**IN THE MATTER OF THE CORONA WIND )  
COMPANIES' JOINT APPLICATION FOR THE )  
LOCATION OF THE CORONA WIND PROJECTS )  
AND THE CORONA GEN-TIE SYSTEM IN )  
LINCOLN, TORRANCE AND GUADALUPE )  
COUNTIES PURSUANT TO THE PUBLIC UTILITY )  
ACT, NMSA 1978, §62-9-3 )  
)  
ANCHO WIND LLC, COWBOY MESA LLC, DURAN )  
MESA LLC, RED CLOUD WIND LLC, TECOLOTE )  
WIND LLC, VIENTO LOCO LLC, )  
)  
JOINT APPLICANTS )**

**Case No. 18-00065-UT**

---

**ERRATA NOTICE TO THE DIRECT TESTIMONY**  
**OF CRYSTAL COFFMAN**

COMES NOW, Ancho Wind LLC, Cowboy Mesa LLC, Duran Mesa LLC, Red Cloud Wind LLC, Tecolote Wind LLC, and Viento Loco LLC (collectively, “Joint Applicants” or the “Corona Wind Companies”), by and through their attorneys, Virtue & Najjar PC, herby file a correction to the Direct Testimony and Exhibits of Crystal Coffman (“Testimony”) filed in support of the Corona Wind Companies’ Joint Application for Location Site Approval of the Corona Wind Projects, the Corona Gen-Tie System and Request for Right of Way Determination (the “Joint Application”) filed with the New Mexico Public Regulation Commission on March 27, 2018 as follows:

1. When the Corona Wind Companies filed the Testimony in Support of the Joint Application, inadvertent mistakes were made in the afore mentioned Testimony on page 11, lines 21-22 and page 12, line 1. Currently these pages state as follows:

Yes, over 220,000 acres of private land have been leased from private landowners and over 21,000 acres are in the process of being leased from the State of New Mexico. These leases have been negotiated and signed by the landowners or the State of New Mexico at their

discretion. Please see Exhibit CC-3 for letters of support for the Corona Wind Projects and Gen-Tie System by private landowners.

This portion of the Testimony should read as follows:

Yes, over 220,000 acres of private land have been leased from private landowners and over 21,000 acres are in the process of being leased from the State of New Mexico. The private leases have been negotiated and signed by the landowners at their discretion. Leases for state lands are currently in the application and lease negotiation stages. Once a form of lease is agreed, the leases will go out to the public for a formal bidding process. Please see Exhibit CC-3 for letters of support for the Corona Wind Projects and Gen-Tie System by private landowners.

2. To better reflect the changes made in the corrected Testimony, Exhibit CC-2 will be replaced with Errata Exhibit CC-2. Please see attached.

3. The remaining information and statements contained in the Testimony were correct.

Respectfully submitted,

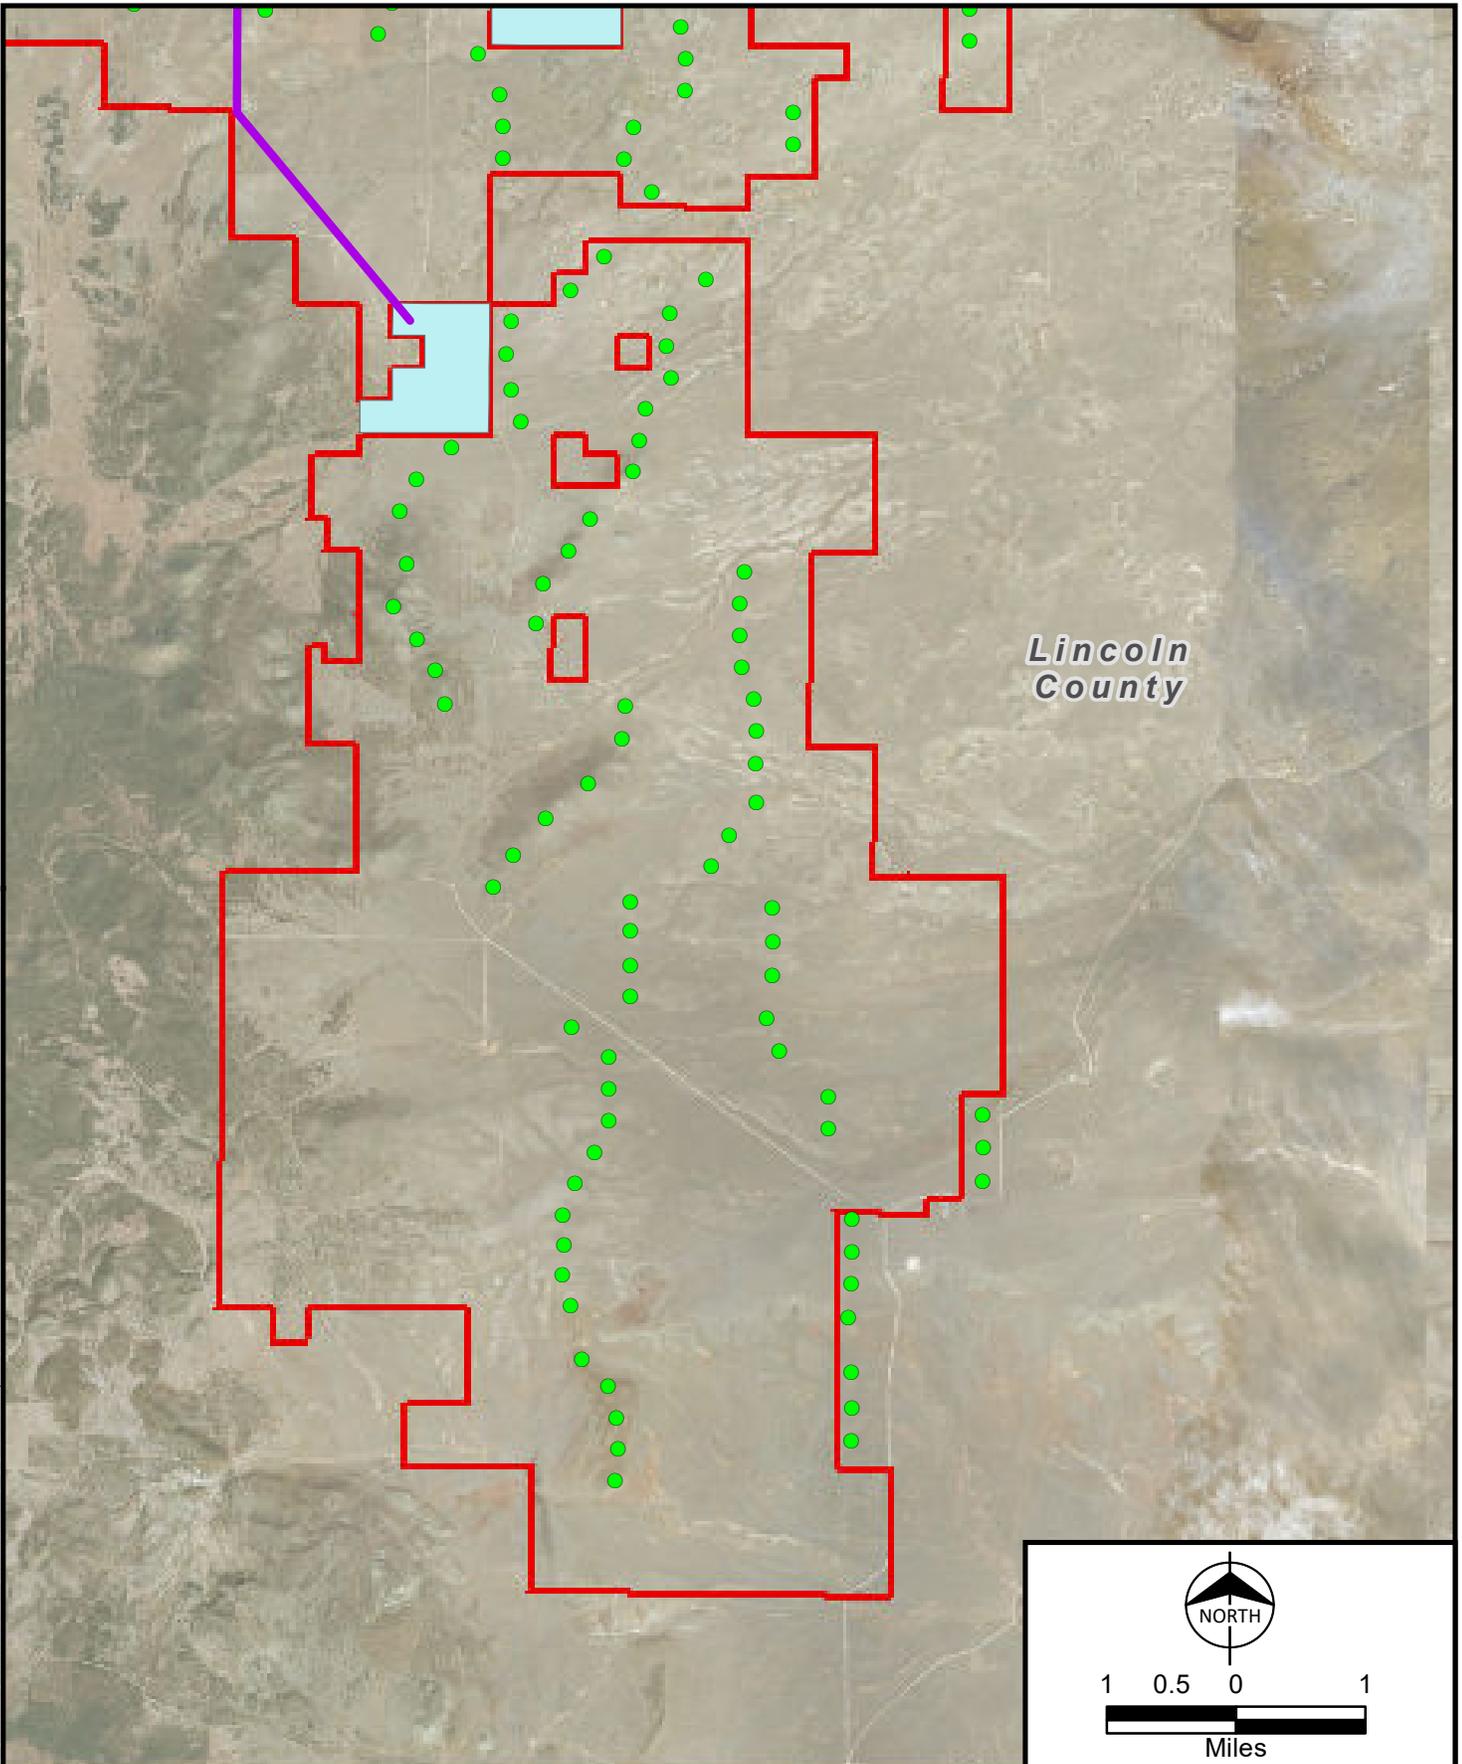

VIRTUE & NAJJAR, P.C.
