

# Mont Sainte-Marguerite Wind

Pattern Canada operates the Mont Sainte-Marguerite Wind facility in the Chaudière-Appalaches region of Québec.

## Good Neighbours Produce Meaningful Partnerships

We believe in acting as a good neighbour through long-term engagement and giving. Pattern Canada equally commits to listening and respecting the landowners and communities that host our facilities through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

## Local Economic Benefits

Represents a capital investment of approximately \$300 million, with more than 60% spent in Québec and 35% in the local Gaspésie-Îles-de-la-Madeline administrative region, creating substantial economic benefits for the area.

## Job Creation

During construction, created more than 350 construction jobs, including equipment operators, electricians, laborers, and more. With the help of local subcontractors and seasonal workers, about ten team members operate and maintain the facility.

## Lasting Revenue

Over its first 25 years of operations, expects to pay more than \$25 million for property taxes, landowner royalties, and community benefits.

## Giving Back

Contributes approximately \$800,000 every year to the participating municipalities Saint-Sylvestre, Saint-Séverin, and Sacré-Coeur-de-Jésus to support local needs and community projects. The facility also supports local groups, events, and causes through sponsorships and donations.

## Harnessing the Power of the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 147 megawatt (MW) facility uses 46 Siemens 3.2 MW direct-drive turbines to provide safe, affordable, and renewable electricity to power the needs of more than 65,000 Quebecers yearly. Electricity produced by the facility is sold to Hydro Québec under a 25-year power purchase agreement.

## About Us

Pattern Canada is dedicated to the production of clean, renewable energy—by Canadians and for Canadians. As the country's largest operator of wind power with more than 1,800 MW of installed capacity, our team has brought ten wind facilities to operation across four provinces, including the largest First Nation wind project in the country. We are proud of our coast-to-coast Canadian roots and the results of our work in the country over the past decade. We look forward to providing lasting benefits to the communities, families, and workers involved in all our existing and future renewable energy facilities.
