

Logan's Gap Wind

Pattern Energy operates the Logan's Gap Wind facility in Comanche County, Texas.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our facilities through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

During construction in 2015, utilized approximately 550 workers on-site, including equipment operators, electricians, laborers, and more. A team of 11 permanent staff operates and maintains the facility.

Community Benefits

Proudly gives back to the community by sponsoring organizations, programs, and events, including the Comanche County Agency on Aging, the Salvation Army Food Assistance Program, the Park Enhancement Group of Comanche, and the Comanche Youth Council.

Lasting Revenue

Provides local families with a new reliable income source through land leases. The facility will make significant contributions to local government and services through taxes and other funding commitments supporting programs such as education and public safety. Over the first 25 years of operations, the facility expects to generate more than \$80 million in tax payments.

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 200 MW facility uses 87 American-made Siemens Gamesa wind turbines to provide safe, affordable, and renewable electricity to power the needs of about 125,000 Texans yearly. Commercial operation began in 2015. Most of the facility's output is sold to Walmart Stores, Inc.

About Us

Pattern Energy is a leading renewable energy company that develops, constructs, owns, and operates high-quality wind and solar generation, transmission, and energy storage facilities. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in the United States, Pattern has a global portfolio of more than 35 power facilities and transmission assets, serving various customers that provide low-cost clean energy to millions of consumers.
