

# Montour Solar One

Pattern Energy and Talen Energy are developing the Montour Solar One project in Montour County, Pennsylvania.

## Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy and Talen Energy commit to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

## Local Economic Benefits

Represents a projected private investment of over \$100 million, bringing widespread economic benefits to the community.

---

## Job Creation

Creates 100–150 construction jobs, including equipment operators, electricians, laborers, and more. We prioritize hiring locally when possible.

---

## Business Opportunities

Creates opportunities for local businesses to provide materials and services.

---

## Community Giving

A Community Benefits Program with \$1 million committed will support the local economy and ensure benefits to the region have a lasting impact through sponsorships and donations.

# Harvesting the Sun

Solar energy provides local and sustainable electricity to the nation's energy mix. Today's solar technologies deliver affordability and reliability even during peak electricity demand, making solar an ideal energy source.

Designed as an approximately 100 MW facility, Montour Solar One will provide safe, affordable, and renewable electricity to power the needs of more than 55,000 Americans yearly. We estimate construction will begin in 2023 with a goal of achieving commercial operation in 2024.

Pattern Energy is a leading renewable energy company that develops, constructs, owns, and operates high-quality wind and solar generation, transmission, and energy storage facilities. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in the United States, Pattern has a global portfolio of more than 35 power facilities and transmission assets, serving various customers that provide low-cost clean energy to millions of consumers.

Talen Energy is one of the largest competitive power generation and infrastructure companies in North America. Talen owns and/or controls approximately 13,000 MW of generating capacity in wholesale U.S. power markets, principally in the Mid-Atlantic, Texas and Montana.

Talen is developing a large-scale portfolio of renewable energy, battery storage and digital infrastructure assets across its footprint. Our goal is to lead the energy transition through our Force For Good Platform, which will create opportunities for our people and communities as we decarbonize our fleet.
