

Heritage Prairie Wind

Heritage Prairie Wind is a project being jointly developed by Pattern Energy and ConnectGen. The Heritage Prairie Wind project will be located in western Kankakee County and northeastern Livingston County. Within Livingston County, the project is located in Dwight, Round Grove, and Broughton Townships. Construction is scheduled to start in Q2 2024, and commercial operations are anticipated to begin by Q4 2025.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy and ConnectGen commit to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team using the contact information at the bottom of the back of this sheet to start a conversation.

Local Benefits

Economic Investment

Represents a projected investment of more than \$850 million in Kankakee and Livingston counties.

Community Revenue

\$150+ million of projected tax revenue to Kankakee and Livingston Counties over the life of the project.

Economic Boost

Increased demand for lodging, food services, gas, groceries, and other local services.

Community Benefits

The project will also provide millions of dollars in additional community benefits over its lifespan.

Job Creation

Construction Jobs

800+ wind construction jobs including heavy equipment operators, electricians, laborers, and others. We prioritize hiring locally when possible.

Full Time Local Jobs

15–20 jobs to operate and maintain the wind facility.

Harnessing the Power of the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

Designed as a 500–600 MW wind energy facility, Heritage Prairie Wind will provide safe, affordable, and renewable electricity to power more than 150,000 homes.

About Pattern Energy

Pattern Energy is a leading renewable energy company that develops, constructs, owns, and operates high-quality wind and solar generation, transmission, and energy storage facilities. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in the United States, Pattern has a global portfolio of more than 35 power facilities and transmission assets, serving various customers that provide low-cost clean energy to millions of consumers.

About ConnectGen

ConnectGen is a multi-technology renewable energy platform dedicated to best-in-class greenfield development, origination, execution, and operations. ConnectGen's portfolio consists of wind, solar, and energy storage projects that will dramatically increase America's supply of low-cost, clean energy.

Our team comprises individuals who have managed the development, financing, construction, and operation of thousands of MW of large-scale renewable energy and infrastructure projects across the United States. ConnectGen is backed by Quantum Energy Partners.

Founded in 1998, Quantum Energy Partners is a leading global provider of private equity, credit, structured capital and venture capital to the responsibly sourced energy and energy transition and decarbonization sectors, having managed together with its affiliates more than \$21 billion in capital commitments since inception.
