Dear Rebecca Crump,

On February 4, 2021, the Impact Assessment Agency of Canada (the Agency) received information regarding the Enterprise Solar Power Project (the Project) proposed by Enterprise Solar GP Inc.

Based on the current information provided regarding the Project, it does not appear to meet the definition of a designated project as described in the *Physical Activities Regulations* under the *Impact Assessment Act* (the IAA). As such, the Agency has determined that the Project, as presented, is not a designated project under the IAA. However, please note that subsection 9(1) of the IAA gives the Minister of Environment and Climate Change the authority to designate the Project if, in the Minister's opinion, the carrying out of Project activities may cause adverse environmental effects or public concerns related to those effects warrant the designation.

Should the Project or any of the planned activities change, or if you have any further questions, please contact me by email at [chelsea.fedrau@canada.ca](mailto:chelsea.fedrau@canada.ca) or by phone at 780-246-7126.

Sincerely,

Chelsea Fedrau  
Project Manager  
Impact Assessment Agency of Canada
