

Lanfine Wind

Lanfine Wind will bring community revenue, local jobs, and benefits lasting generations. Developed by Pattern Canada, the wind project will be located to the south and west of Oyen, Alberta in Special Area 3 within the Municipal District of Acadia.

Meaningful Partnerships

We believe in acting as a good neighbour through long-term engagement and giving. Pattern Canada equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Economic Investment

Represents a private investment of \$350 million, bringing widespread economic benefits to the community.

Job Creation

Creates 150–200 construction jobs, including equipment operators, electricians, labourers, and more. We prioritize hiring locally when possible. Once operational, 7 to 10 permanent staff will operate and maintain the facility.

Business Opportunities

Creates millions of dollars of opportunity for local businesses to provide materials and services.

Lasting Revenue

Provides local families with a new reliable income source through land leases and makes significant contributions to the community. The project will make significant contributions to local government and services through taxes and other funding commitments supporting programs such as education and public safety.

Harnessing the Power of the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

A 150.5 MW wind energy facility featuring 35 Vestas V150-4.3 MW turbines, Lanfine Wind will provide safe, affordable, and renewable electricity to power the needs of more than 25,000 homes in Alberta yearly.

About Us

Pattern Energy is one of the world's leading renewable energy generation, transmission, and energy storage companies, with operating and development footprints in the United States, Canada, Mexico, and Japan. Our 1,050 MW Western Spirit Wind facility represents the most wind power ever constructed as a single phase in the Americas.

Majority owned by the Canada Pension Plan Investment Board, Pattern Energy is one of the country's largest operator of wind power with nearly 2 GW of installed capacity, our team has brought over ten wind facilities to operation across five provinces, including the largest First Nation wind project in the country, creating thousands of jobs and millions of dollars in direct economic benefits to our local communities.

With our experience building renewable energy projects worldwide, we are well-positioned to continue delivering high-quality facilities for years to come. For more information, please visit www.patterncanada.ca
