

# Pattern Energy

California's largest 100% renewable energy company

Founded in 2009 and headquartered in San Francisco, Pattern Energy is helping provide low-cost renewable energy to millions of Californian ratepayers, more than any other company in the state.

Pattern's current operational facilities provide 7,700 GWh/year and a total of 1,960 MW into California. We work closely with utilities, municipalities, ESPs, Community Choice Aggregators, and other retail energy providers across the state.

## Powering California

~20% of California's clean energy needs

Once SunZia comes into operations

22% of CCA clean power

Provided by Pattern

>6% of LA's clean energy needs

Currently provided by Western Spirit and serving the Los Angeles Department of Water and Power

### SunZia

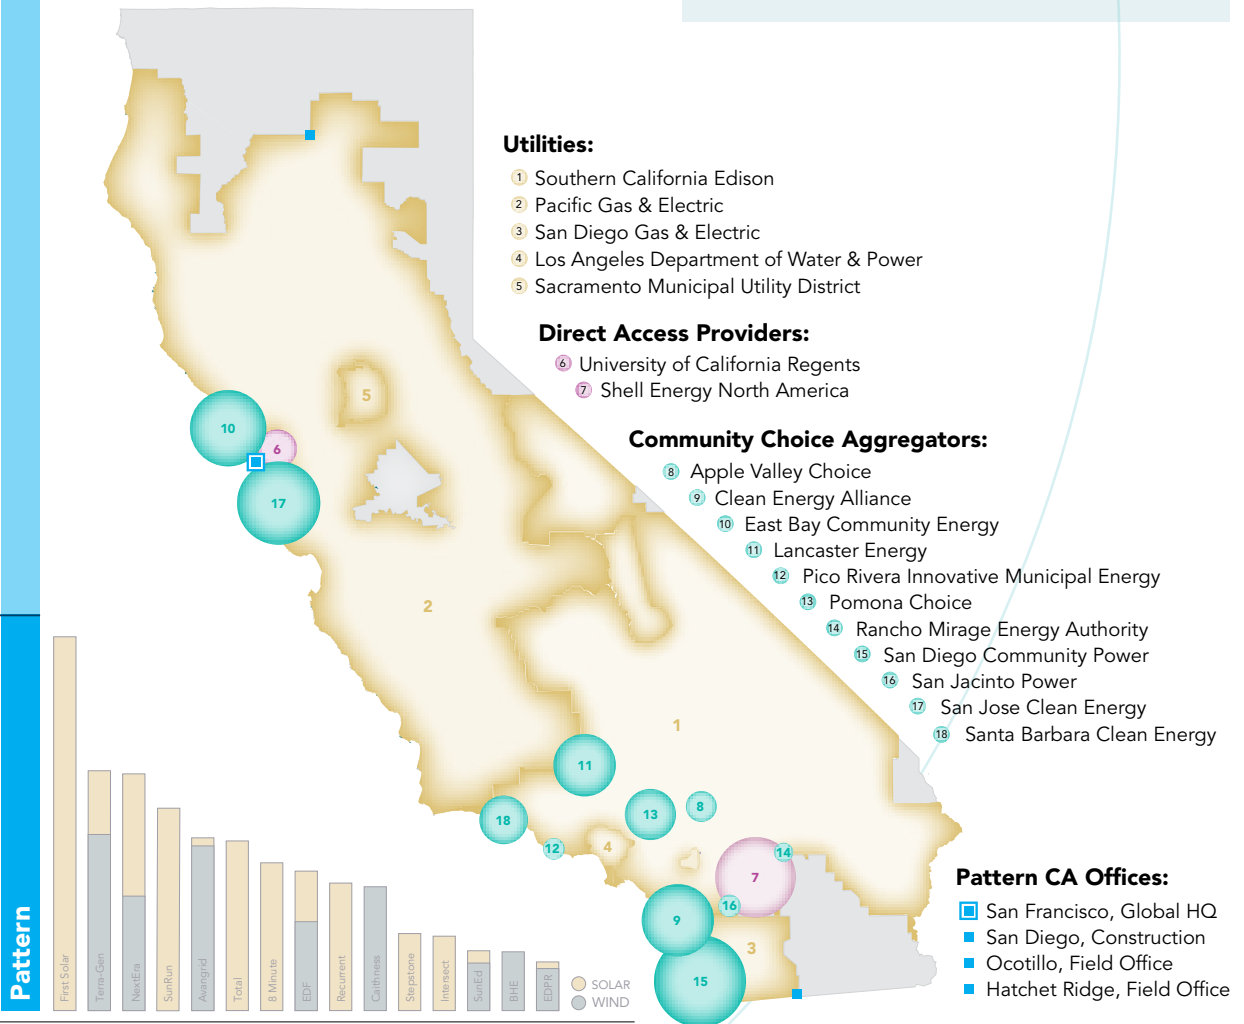

Pattern Wind for CA:  
Under Construction  
12,800 GWh / YR  
3,515 MW

SunZia Wind will be the largest renewable project in U.S. history, with 3x more power than the Hoover Dam

### CA Fleet

Pattern Wind for CA:  
Operational Facilities  
7,700 GWh / YR  
1,960 MW

Hatchet Ridge Wind  
Ocotillo Wind  
Broadview I Wind  
Broadview II Wind  
Grady Wind  
Tecolote Wind  
Red Cloud Wind  
Duran Mesa Wind  
Clines Corners Wind

## About Us

Pattern Energy is a leading renewable energy company. We develop, construct, own, and operate high-quality wind and solar generation, transmission, and energy storage facilities. Our mission is to transition the world to renewable energy through sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in the San Francisco, Pattern has a portfolio of more than 30 power facilities and transmission assets across North America, serving various customers that provide low-cost clean energy to millions of consumers.

The urgency of accelerating our world's transition from fossil energy to a sustainable future has never been clearer and our development pipeline contains bold initiatives that can help us transition at scale.

**Hunter Armistead**  
CEO, Pattern Energy

## Commitments

Our responsibility to the environments, communities, and cultures where we have a presence is a key part of achieving our mission to transition the world to renewable energy.

### Health & Safety

We incorporate safety and wellness into our decision-making in everything we do.

### Community & Culture

We are committed to listening to and respecting the communities that host our projects and being involved in engagement and giving activities for the long-term.

### Environmental Stewardship

We consider it our responsibility to produce and transport renewable energy to consumers in a way that respects the integrity of our environment.

### Diversity, Equity & Inclusion

We are committed to providing a diverse, equitable, and inclusive workplace where all employees feel they belong.
