

Ocotillo Wind

Pattern Energy operates the Ocotillo Wind facility in Imperial County, California.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

During construction, utilized approximately 350 workers on-site, including equipment operators, electricians, laborers, and more. Together with contractors and seasonal workers, a team of 20 permanent staff operates and maintains the facility.

Community Benefits

Partners with the Imperial Valley Community Foundation (IVCF) to contribute millions of dollars to support community, cultural, environmental, and youth causes. The IVCF administers grant processes for the Ocotillo Wind Education Fund and Ocotillo Wind Imperial Valley Fund.

Lasting Revenue

The facility will make significant contributions to local government and services through taxes and other funding commitments supporting programs such as education and public safety. Over the first 20 years of operations, the facility expects to generate more than \$100 million in tax payments, with Imperial County, Imperial Valley College, and the Imperial Unified School District being significant beneficiaries.

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 265 MW facility uses 112 American-made Siemens Gamesa 2.3 MW wind turbines to provide safe, affordable, and renewable electricity to power the needs of about 300,000 Californians yearly. The facility's output is sold to San Diego Gas & Electric through a 20-year power purchase agreement.

About Us

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
