

Panhandle Wind

Pattern Energy operates the Panhandle Wind facility in Carson County, Texas.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

During construction, utilized more than 400 workers on-site, including equipment operators, electricians, laborers, and more. Together with contractors and seasonal workers, a team of approximately 20 permanent staff operates and maintains the facility.

Community Benefits

The Panhandle Wind Community Benefits Program was established at the Amarillo Area Foundation (AAF) to promote educational and civic causes in Carson County. The AAF administers an annual grant process for the Panhandle Wind Education Fund and Civic Fund, with guidance from an advisory committee of Carson County residents.

Lasting Revenue

Provides local families with a new reliable income source through land leases. The facility will make significant contributions to local government and services through taxes and other funding commitments supporting programs such as education and public safety. Over the first 25 years of operations, the facility expects to generate more than \$200 million in tax payments, landowner royalties, and community benefits

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 400 MW facility includes two phases that began operations in 2014. Panhandle Wind 1 has 118 General Electric 1.85 MW wind turbines, and Panhandle Wind 2 entails 79 Siemens Gamesa 2.3 MW turbines.

About Us

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
