

Post Rock Wind

Pattern Energy operates the Post Rock Wind facility in Ellsworth and Lincoln counties, Kansas.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our facilities through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

During construction in 2012, utilized approximately 250 workers on-site, including equipment operators, electricians, laborers, and more. A team of 13 permanent staff operates and maintains the facility, in addition to the use of local contractors.

Supporting the Community

Post Rock Wind gives back by supporting groups, causes, and events that strengthen the local community, such as the Ellsworth Volunteer Fire Department and Wilson Czech Opera House.

Lasting Revenue

Provides local families with a new reliable income source through land leases. The facility will make significant contributions to local government and services through taxes and other funding commitments supporting programs such as education and public safety. Over the first 20 years of operations, the facility expects to contribute more than \$10 million in taxes to benefit the residents of Ellsworth, Lincoln, and Rice counties.

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 201 MW facility uses 134 American-made General Electric 1.5 MW wind turbines, providing safe, affordable, and renewable electricity to power the needs of about 200,000 Americans yearly. The facility's output is sold to Kansas-based electric utility Eversource.

About Us

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
