

Gulf Wind

Pattern Energy operates the Gulf Wind facility in Kenedy County, Texas.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

In 2021, upgraded technology with 118 Siemens Gamesa turbines, utilizing approximately 450 workers on-site, including equipment operators, electricians, laborers, and more. With the help of local contractors, 17 permanent staff operate and maintain the facility.

Community Benefits

Proudly gives back to the community by sponsoring organizations, programs, and events, including Kingsville ISD, youth sports teams, Boys and Girls Club, and the Junior Livestock Show.

Lasting Revenue

Provides local families with a new reliable income source through land leases. The facility will make significant contributions to local government and services through taxes and other funding commitments supporting programs such as education and public safety. Over the first 25 years of operations, the facility expects to generate more than \$90 million in tax and landowner payments.

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 271 MW facility uses 118 Siemens Gamesa 2.3 MW wind turbines to provide safe, affordable, and renewable electricity to power the needs of about 90,000 Texans yearly. Commercial operation began in 2009. Output is sold to Austin Energy under a 20-year power purchase agreement.

About Us

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
