

Amazon Wind Farm Fowler Ridge

Pattern Energy operates the Amazon Wind Farm Fowler Ridge facility in Benton County, Indiana.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

Amazon Wind's yearlong construction period concluded in 2016 and entailed 300 workers during peak activity. Nine on-site personnel operate and maintain the facility.

Community Giving

Amazon Wind partners with the Benton Community Foundation to contribute to local initiatives and gives back to the region through sponsorships and donations. The mission of Benton Community Foundation is to enhance community through civic leadership, philanthropy, and charitable economic development initiatives.

Lasting Revenue

The facility will inject an estimated \$40 million into the regional economy over its first 25 years of operations through property taxes, and landowner royalties.

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 150 MW facility utilizes 65 Siemens Gamesa 2.3 MW wind turbines, with the blades manufactured in Iowa, nacelles from Kansas, and turbine towers fabricated in Wisconsin by Broadwind and in Michigan by Ventower. The facility's output helps Amazon Web Services achieve the goal of powering its operations with 100% renewable energy by 2025.

About Us

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
