

St. Joseph Wind

Pattern Canada operates the St. Joseph Wind project in the Rural Municipality of Montcalm, Manitoba.

Meaningful Partnerships

We believe in acting as a good neighbour through long-term engagement and giving. Pattern Canada equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

Involved approximately 375 workers on-site during construction in 2011. Ten team members operate and maintain the facility, in addition to the use of local contractors and seasonal workers.

Giving Back

Contributes annually to support the Musée St. Joseph Museum, a must-see attraction that displays the town's rich history. The facility is proud to support other local groups, causes, and events through our sponsorship program.

Lasting Revenue

Over the first 27 years of operations, will pay an estimated \$44 million in property taxes and \$38 million to the family farmers hosting the facility. Two-thirds of the tax revenue goes to education and one-third to the local communities.

Harnessing the Power of the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 138 megawatt (MW) facility utilizes 60 Siemens Gamesa 2.3 MW wind turbines to provide safe, affordable, and renewable electricity to power the needs of more than 120,000 Manitobans yearly. The facility's energy output is sold to Manitoba Hydro under a 27-year power purchase agreement.

About Us

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
