

Enterprise Solar

Pattern Canada is developing the Enterprise Solar project in Vulcan County, Alberta. The facility will bring community revenue, local jobs, and benefits lasting generations.

Meaningful Partnerships

We believe in acting as a good neighbour through long-term engagement and giving. Pattern Canada equally commits to listening and respecting the landowners and communities that host our projects through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Local Economic Benefits

Represents a private investment of approximately CAD \$175 million, bringing widespread economic benefits to the community.

Job Creation

Creates 120–200 construction jobs, including equipment operators, electricians, laborers, and more. We prioritize hiring locally when possible.

Business Opportunities

Creates millions of dollars of opportunity for local businesses to provide materials and services.

Lasting Revenue

Provides local families with a new reliable income source through land leases and makes significant contributions to the community. The stable, long-term funding will contribute to education, community services, roads, and first responder capabilities.

Harnessing the Sun

Solar energy provides local and sustainable electricity to the nation's energy mix. Today's solar technologies deliver affordability and reliability even during peak electricity demand, making solar an ideal energy source.

Designed as an 80 MWac facility, Enterprise Solar will provide safe, affordable, and renewable electricity to power the needs of more than 20,000 Albertans yearly. We estimate construction will begin in Fall 2023 with a goal of achieving commercial operation by the end of 2024.

About Pattern Energy

Pattern Energy is a leading developer, operator and owner of renewable energy infrastructure projects and facilities across North America. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in San Francisco, Pattern has a portfolio of power facilities and transmission assets producing and transporting nearly 6,000 MW of power across North America, serving various customers that provide low-cost clean energy to millions of consumers.
