

NOTICE OF RIGHT-OF-WAY APPLICATION

Bolo Transmission LLC. ("Bolo") filed an Application for approval of a proposed 200-foot right-of-way width ("ROW"), pursuant to NMSA 1978, Section 62-9-3.2, for the Bolo Transmission Project ("Bolo Project or Project") with the New Mexico Public Regulation Commission ("NMPRC or Commission") on August 6, 2025. Bolo is an indirectly held subsidiary of "Pattern Energy". The Bolo Project is an approximately 23-mile (121,440 feet) 345kV transmission line. The Project has acquired private land property rights in Torrance County to allow for a double circuit 345kV connection between the Western Spirit Switchyard on the PNM transmission network and the Pete Heinrich Switchyard built in conjunction with the SunZia Transmission Project. The Project is intended to facilitate one double circuit 345kV interconnection with an initial capacity capability between 800 - 2,000 MW depending on the outcome of ongoing technical studies.

Bolo alleges that the Project's interconnection of two currently independent electric transmission systems will provide greater interregional connectivity. The SunZia Transmission Project has been granted Subscriber Participating Transmission Owner authority by the California Independent System Operator (CAISO) and will be managed as part of that system's operations. As utilities in New Mexico become part of broader market territories, the Bolo Project will allow for New Mexico to have an additional point of electrical interconnection within these day-ahead markets. Facilitating the efficient delivery of power between western markets, the Project will allow for the lowest cost or supplemental energy to be delivered between markets as needed.

NO ACTION ON YOUR PART IS REQUIRED UNLESS YOU WISH TO PARTICIPATE IN THE PUBLIC HEARING OR PROVIDE COMMENT ON THE APPLICATION.

The Application and other filings are available at the Commission's website under "Case Lookup E-docket" by searching Case No. 25-00056-UT at <https://www.prc.nm.gov/case-lookup-e-docket/>, and on Pattern Energy's website at <https://patternenergy.com/bolo-application-documents/>.

Members of the public can watch the hearing via a livestream on the Commission's YouTube channel and its website, <https://www.prc.nm.gov/public-hearings/>.
